Dear Sir

RE: PROPOSED WEMBEZI MALL: AVAILABLE CAPACITY

The matter above refers.

This serves to confirm that the Wembezi Substation has available capacity above 2 MVA.

The Wembezi Substation has an installed capacity of 15 MVA with the monthly actual demand averaging 4.5 MVA.

Should you wish to request supply from the Municipality, we can supply 2MVA at 11 000 Volts, the costing for the installation is being prepared and will be submitted to you shortly.

Kindly contact me should you have any other queries.

Yours Faithfully

P.S Mkhize

Municipal Manager
